A note to our customers:

Due to the area we live and drive in daily, we have updated our Maintenance Menus to include some new services. With our customers' feedback and vehicle technology of today, we are assisting you with **maximum comfort and fuel mileage** to keep your vehicle at optimum performance. Please see one of our service advisors for a complete list of recommended services and one of our service menus. **Also, we will meet or beat any other Toyota dealers' service coupons.**

Thank You,

Service Manager
Tom Maggerise

HEARTLAND
TOYOTA • SCION

901 WEST HILLS BLVD.
360-377-1200

***Must present coupon at the time of write up.** Not to exceed \$100 discount. Nontransferable. Not valid with any other coupon, offer or special and cannot be applied to previous purchases. 15% discount available at time of signing up for Auto Advantage account. Cash value 1/20 of one cent. Coupon expires September 30, 2014.

POWER STEERING SERVICE

The hydraulics used to power your vehicle's steering system rely on fresh fluid. When power steering fluid breaks down over time and miles, it causes early wear to soft metals and hardens rubber seals. The result is noise when you turn the wheel, leading to premature component failure.

\$139.95
+ TAX &
WASTE FEE*

**STAY
COOL!**

A/C SERVICE

When temperatures rise, there's nothing more refreshing than climbing into a cool, air-conditioned car. Over time, however, A/C fittings become loose, O-rings, hoses and seals wear out. Getting your vehicles air conditioner serviced at the first sign of trouble will save you time and money.

BRAKING SYSTEM FLUSH SPECIAL

When it comes to safety, nothing is more critical than Brakes! Since the deterioration of your brake system is so gradual, you're less likely to notice a problem until it's too late. Make sure our brake fluid service is a part of your normal maintenance schedule.

Many vehicle manufacturers recommend changing your brake fluid about every 2 years or 30,000 miles.

GAS SAVERS

1. Vehicle Gas Caps: About 17% of the vehicles on the road have gas caps that are either damaged, loose, or are missing altogether, causing 147 million gallons of gas to vaporize every year.

2. Under inflated Tires: When tires aren't inflated properly it's like driving with the parking brake on and can cost a mile or two per gallon!

3. Worn Spark Plugs: A vehicle can have four, six or

eight spark plugs, which fire as many as 3 million times every 1000 miles, resulting in a lot of heat and electrical and chemical erosion. A dirty spark plug causes misfiring which wastes fuel. Spark plugs need to be replaced as recommended by the manufacturer.

4. Dirty Air Filters: An air filter that is clogged with dirt, dust and bugs chokes off the air and creates a "rich" mixture - too much gas being burned for the amount of air, which wastes gas and causes the engine to lose power. Replacing a clogged air filter can improve gas mileage by as much as 10%, saving about 40 cents a gallon.
